About This Edition

Welcome to the second edition of "Winone Insight." We are thrilled to reflect on a year marked by growth, engagement, and celebration under the theme of "Vistaar."

This year has been an exciting journey, filled with vibrant festivities and events. Our grand Diwali celebrations illuminated our spirits, while Quality Month showcased our commitment to excellence. The Winone League of Legends brought out the competitive spirit in everyone, fostering teamwork and camaraderie.

A key highlight of our year was the Knowledge Exchange Program, where our technical team traveled to Shenzhen, China, for an intensive month-long training. This program not only enhanced their skills but also strengthened the bond between our Indian and Chinese teams. Additionally, our management teams convened for two pivotal international meetings—one in Hanoi, Vietnam, and another in Shenzhen, China.

Our commitment to social responsibility shone brightly through our winter clothing donation campaign, which reached out to around 400 people in dire need.

This year stands as the most productive in Winone's history. Every department has gone above and beyond, contributing overwhelming effort towards achieving our company's objectives.

As we look to the future, we extend our heartfelt gratitude to everyone who has made this year a resounding success. Together, we hope to reach new milestones and continue our journey towards greater success in the coming year.

Mr. Zhang Xiaohe
General Manager

Dear colleagues
Hello everyone!

2023 was a year full of challenges and opportunities. We have achieved certain results in the Indian Market. First, I would like to express my heartfelt gratitude and respect to every employee who works hard in our Winone India! I hope that every employee can continue to shine in your positions, accompanying the company to achieve win-win results.

With the development of the manufacturing market in China and India and the growing strength of competitors, our company currently is about to face huge operating pressure. The most important work in 2024 is to reduce the cost in all dimensions, including quality, yield, efficiency, work force and other all-round costs.

I. Material management: Control implementation of material preparation, idle material prevention and control and other aspects.

II. Operating costs reduce:

1. Import automatic production at India in 2024;
2. Quality inspectors work separate clearly to avoid duplication;
3. Formulate the annual yield target of each process in 2024, and conduct assessment once

every half year.

III. The localization of MDA products in India requires a sound CNC and assembly process.

Next, we will actively expand the market, strengthen cooperation with local partners, and jointly promote the sustainable development of the company in India. At the same time, it is necessary to strengthen team building, enhance the professional competence and business ability of employees, and provide a solid talent guarantee for the development of the company.

Let's work together to achieve the goals of the Indian Factory and strive for a better future for our company!

Finally, I wish everyone a happy life and smooth work!

Meet our Star Performer of the Month – 2023-24

Star performers are fully conscious of their strengths and weaknesses and have a good grasp of what they're not good at just as well as they're aware of what they're good at.

Star performers seek out productive employee interaction; they don't shut their world to it. While much office chatter can be trivial, the opportunity for interaction through personal, one-on-one conversation could lead to stimulating effective ways to understand someone else better and increase productivity.

स्टार परफॉर्मर के रूप में पहचाना जाना सिर्फ एक सम्मान नहीं है; यह हमारे रोजमर्रा के कार्यों में डाली गई कड़ी मेहनत और समर्पण का प्रमाण है। प्रबंधन और सहयोगियों से मिली प्रशंसा और मान्यता ने मेरे काम में गर्व की भावना को गहरा किया है।

स्टार परफॉर्मर कार्यक्रम के हिस्से के रूप में आयोजित विभिन्न गतिविधियों और कार्यक्रमों ने उत्कृष्टता और निरंतर सुधार की संस्कृति को बढ़ावा दिया है। एक ऐसी कंपनी का हिस्सा बनकर बहुत अच्छा लगता है जो व्यक्तिगत उपलब्धियों को महत्व देती है और उनका उत्सव मनाती है, जो बदले में हमें टीम की सफलता में अधिक प्रभावी ढंग से योगदान करने के लिए प्रेरित करता है। मैं इस कार्यक्रम द्वारा प्रदान किए गए अवसरों के लिए आभारी हूँ और हमारे संगठन में संभव की सीमाओं को लगातार आगे बढ़ाने की उम्मीद करता हूँ।"

Diwali

On 10th November 2023 to 11th November 2023, The Winone India transformed into a dazzling spectacle of lights and colors as employees from diverse backgrounds came together to celebrate Diwali, the Festival of Lights. The annual event not only brightened spirits but also strengthened bonds among colleagues.

To mark the occasion, Bay decoration and creative clicks competitions were organized on 10th November 2023 where employees showcase their creativity and talent. The next day i.e. 11th November 2023 a stunning display of rangoli art at the entrance, welcoming attendees with intricate patterns and vibrant colors. As the evening progressed, employees enjoyed a variety of performances, including traditional dance, songs, mimicry and other fun activities.

The atmosphere was electric, and the event concluded with a prize distribution ceremony and the distribution of Diwali gift, making it a memorable experience for all who attended.

"The joy of Diwali at Winone is a testament to our vibrant company culture and our commitment to celebrating diversity," said Mr. Manmohan Shukla, Indian Director of Winone. "It's a wonderful opportunity for everyone to learn more about each other's traditions and foster a sense of community."

Guests were treated to an array of traditional Indian foods, ranging from sweet delicacies. The food, much like the festival itself, was a hit among the attendees.

Diwali is lighting:

- The lamp of love in one's heart;**
- The lamp of abundance in one's home;**
- The lamp of compassion to serve others;**
- The lamp of knowledge to dispel darkness.**

Every lamp that you light is a symbol of good quality. Just as every lamp shines brightly, every human being possesses unique qualities. Some have forbearance, others exude love, strength, or generosity; some have the ability to accept everyone as their own, others possess a scientific temperament that can uplift humanity; and yet others have the power to unite people across different religions. These latent talents are like lamps waiting to be lit. When these hidden talents awaken, that is Diwali.

Don't be satisfied with lighting just one lamp; strive to light a thousand. We encourage everyone to embody wisdom and celebrate Diwali in every moment and every day of your life.

Let this Diwali be a reminder to light the lamps of your talents and potential, illuminating your life and the lives of those around you. Celebrate the festival of lights by recognizing and nurturing the diverse qualities within you and others, creating a brighter, more harmonious world.

“As we commemorate Vishwakarma Jayanti, let us remember the invaluable contributions of Lord Vishwakarma in shaping our world. May his divine presence empower us to create and innovate.”

In continuation with the annual tradition, our company celebrated Vishwakarma Puja on 17th September 2023 with immense delight and fervour. The event witnessed enthusiastic participation from every employee, collectively organizing and ensuring its success.

A place near the tool room was adorned with colourful fringes, and we established the idol of Lord Vishwakarma. A heartfelt havan and prayer were meticulously conducted, seeking the blessings of Lord Vishwakarma for the prosperity and harmonious functioning of the entire company. Notably, an integral aspect of the puja involved the worship of every machine by the employees, acknowledging their instrumental role in our work processes. Vishwakarma Puja represents a significant occasion that emphasizes the significance of the work carried out by workers, engineers, and individuals involved in various sectors.

This auspicious festival brings together professionals from various fields, fostering a sense of community and camaraderie. As we celebrate Vishwakarma Puja, let acknowledge and uplift the contributions of skilled workers who play an instrumental role in shaping our world.

Holi Celebration

Holi celebration in the office is a great way to enhance inclusion and bring positivity to the workplace environment. The vibrancy of colors brings along vibrancy in the relationship of employees and revitalizes the enthusiasm of unity, love, positivity, and happiness among all.

We started the day with canteen quiz competition; the canteen came alive with excitement as we organized quiz competitions and adding an extra layer of fun to the festivities.

However, that's not all! We also set up a decorative selfie point, where everyone could capture their colourful moments and create lasting memories together. The vibrant colors, laughter, and camaraderie made it a picture-perfect Holi celebration. The day end with distributing sweets to everyone, spreading the sweetness and joy of the festival.

EXTENDED REALITY

AR, VR, XR

AT A GLANCE

Extended Reality (XR) is an umbrella term encompassing Augmented Reality (AR), Virtual Reality (VR), and Mixed Reality (MR), which blend the physical and virtual worlds to create immersive experiences. Here's a quick look at each component and its significance:

Augmented Reality (AR):

- **Definition:** AR overlays digital information—images, sounds, or other data—onto the real world, enhancing the user's perception of their environment.
- **Applications:** Commonly used in mobile apps and games (like Pokémon GO), AR is also widely used in retail (virtual try-ons), education (interactive learning), and industrial maintenance (guidance overlays).

Virtual Reality (VR):

Definition: VR creates a fully immersive digital environment, completely blocking out the physical world and replacing it with a simulated one.

Applications: VR is prominent in gaming and entertainment, training simulations (like flight simulators for pilots), medical applications (surgery simulations), and virtual tours.

Mixed Reality (MR):

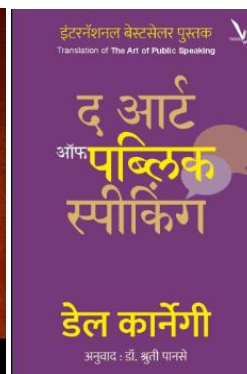

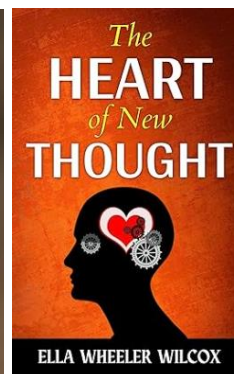

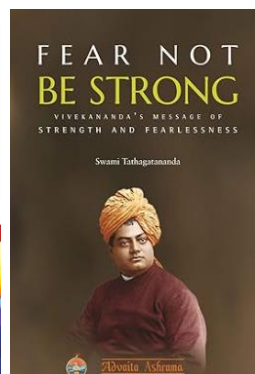

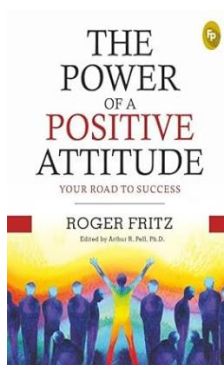

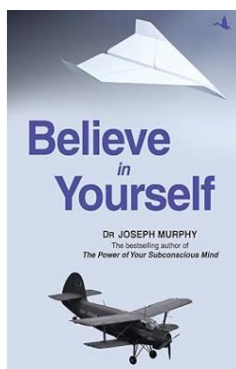

- **Definition:** MR, often included under the XR umbrella, seamlessly blends real and virtual worlds to produce new environments where physical and digital objects coexist and interact in real-time.
- **Applications:** Used in collaborative workspaces, advanced simulations, and interactive product design.

Extended Reality (XR):

- **Definition:** XR is the overarching term that includes AR, VR, and MR, representing the entire spectrum of immersive technologies.
- **Applications:** XR is driving innovation across multiple sectors, including healthcare, education, entertainment, real estate, and manufacturing, by enhancing user experiences and enabling new ways of interaction.

Impact and Future Prospects

The XR landscape is rapidly evolving, driven by advancements in hardware, software, and connectivity (like 5G). These technologies are expected to transform how we work, learn, and play, providing unprecedented levels of engagement and interactivity.
